

Dear Student

Congratulations on being accepted for the Film Studies course. Please find below some categories of films you could watch before you start the course. The suggested viewing below is not a necessary requirement but will be very helpful.

You will be studying British films of the 1960s so it would be useful if you could watch some examples. Another topic is the Hollywood road movie. You could carry out research to find some film titles and then try and watch a couple of films which appeal to you.

You could also try to think of a couple of films which have made a big impact on you in terms of style, themes and ideas.

We look forward to meeting you in September. Please get in touch if you have any questions,
